Subject: AOL court case against Microsoft

Dear Sir/ Madam:

I hope that you will try your utmost to get the parties involved in technology competition to try and cooperate with each other so we, the consumers, will have the benefit of their talents through better and cheaper technological advancements.

I feel these court cases are a burden on the economy, and share a lot of the blame for the decreased value in 401k's. Too bad that the people going to court over these matters, don't share in the loss of savings plans that the rest of us experience.

Respectfully,

Mark W. Thome., Bellevue, Washington 425-641-1979
